

2nd International Workshop Geometric Field Theory

July 6-8, 2026

Warsaw, Poland

Award to the best short talk

We are delighted to certify that **Marco D. Maceda**, from the Universidad Autónoma de Madrid (UAM), Spain, was awarded the **Best PhD Short Talk** at the second edition of the Geometric Field Theory International Workshop.

His 30-minute presentation, entitled

Manifolds with Boundaries, Field Theory and Multisymplectic Formalism,

was recognized for its outstanding scientific quality, exceptional clarity of presentation, and engaging delivery. The expert panel particularly commended the effective use of animations to communicate complex ideas and the presentation of significant and original research results.

The award was conferred unanimously by the expert panel consisting of Prof. Saskia Demulder, Prof. Xavier Rivas, and Prof. Nicoleta Voicu.

Sincerely,

Jordi Gaset Rifà

Lead Organizer of the GFT series

Tenure-track Assistant Professor

CUNEF Universidad
